PRESS RELEASE

NUMBER	SUBJECT	DATE
2016-014	Video Voyeurism Update & Arrest 43-1604-004437	04/15/16

Back on October 23, 2015, the Wilton Manors Police Department arrested and charged Marek Amann with four counts of sexual battery and four counts of video voyeurism. During the initial investigation, evidence revealed Amann had secretly video recorded himself having sex with the victim on four different occasions while the victim was physically helpless and unconscious. These crimes were committed at Amann's residence which was located in the 2600 block Northeast 9th Avenue, Wilton Manors, Florida.

Further evidence revealed Amann had secretly video recorded numerous females in various locations which appear to have been done without the women's knowledge. This week, detectives were in contact with another possible victim. The victim met with detectives and positively identified herself in thirteen videos, where she was video recorded without her knowledge. These videos were of the victim while she was in the bathroom, where she expected to be in a private area. The victim advised she never gave Amann permission to videotape her at any time.

Amann was arrested on April 14, 2016 and charged with thirteen counts of Video Voyeurism in this case. Amann is currently being held on \$13,000 bond.

The Wilton Manors Police Department is still trying to identify two other women in Amann's videos. Wilton Manors Police Department is asking women who may have had contact with Amann in the past to contact Detective Bonnie Owens at 954-390-2192 or bowens@wmpd.org.
