PRESS RELEASE

NUMBER	SUBJECT	DATE
2016-015	Regional Analysis and Information Data Sharing (RAIDS) Online Crime Mapping Software	05/18/16

FOR IMMEDIATE RELEASE:

Wilton Manors Police Department Releases New Crime Mapping Software to the Community

(Wilton Manors, FL)- The Wilton Manors Police Department (WMPD) and BAIR Analytics, a LexisNexis company recently partnered to provide a new way for the City of Wilton Manors to stay informed about crime within the City. WMPD now utilizes online crime mapping software called **RAIDS Online** which maps crimes, analyzes crime data, and alerts community members about crimes in their area.

The Wilton Manors community can now view data as map or a grid with all of the crimes in the area, sign up for neighborhood watch reports that automatically email a breakdown of recent crime activity, and submit anonymous tips about crimes directly to Crime Stoppers. RAIDS Online displays all of the incidents on a map, grid and analytics dashboard along with some basic information about the incidents, including the type of crime, block-level address, and the date and time of incident.

There's even a RAIDS Online Mobile app for Android and IPHones that is free and available to the Wilton Manors community. RAIDS Online Mobile is a convenient way that empowers community members to better understand crime trends and bring awareness to crimes in the area.

As always remember to "*know your Neighbor, know your Neighborhood*" and if you see something that doesn't look quite right say something by contacting Central Dispatch at 954-764-4357 (954-764-HELP) for Non-Emergency/Not In-Progress type calls or 9-1-1 for Emergency/In-Progress type calls.

For more information about the RAIDS Online and RAIDS Online Mobile app visit:
