INTERLOCAL AGREEMENT FOR Go SOLAR  
BUILDING PERMIT-RELATED SERVICES TO BE PERFORMED BY THE BROWARD  
COUNTY PERMITTING, LICENSING AND CONSUMER PROTECTION DIVISION OF  
THE  
ENVIRONMENTAL PROTECTION AND GROWTH MANAGEMENT DEPARTMENT

This is an Interlocal Agreement, made and entered into by and between:  
BROWARD COUNTY, a political subdivision of the State of Florida, hereinafter referred  
to as "COUNTY,"

AND

WILTON MANORS, a municipal corporation existing under the laws of the state  
of Florida, hereinafter referred to as "CITY/TOWN."

WHEREAS, this Agreement is entered into pursuant to Section 163.01, Florida  
Statutes, as amended, also known as the "Florida Interlocal Cooperation Act of 1969";  
and

WHEREAS, the COUNTY and CITY/TOWN have agreed to work together under  
a U.S. Department of Energy ("DOE") Rooftop Solar Challenge Agreement Number  
DE-EE0005701 ("Go SOLAR- Broward Rooftop Solar Challenge"); and

WHEREAS, Go SOLAR is part of a DOE initiative, which strives to make solar  
energy cost-competitive with other forms of energy by the end of the decade; and

WHEREAS, the goal of reducing the installation costs of solar energy systems is  
to contribute toward the widespread, large-scale adoption of this renewable energy  
technology and restore the U.S. leadership in the global clean energy race; and

WHEREAS, DOE's Rooftop Solar Challenge serves as an incentive for  
twenty-two (22) regional awardees to make it easier for Americans to implement solar  
energy systems; and

WHEREAS, by streamlining permitting processes, making available best  
management practices for zoning codes, connecting solar power to the electric grid, and

increasing access to financing, COUNTY, CITY/TOWN, and other municipalities who are participating in Go SOLAR will clear a path for rapid expansion of solar energy and serve as models for other communities in the state of Florida and across the nation; and

WHEREAS, one primary goal of Go SOLAR is to create a web based permitting solution for rooftop photovoltaic (PV) installations, whereby applicants can apply online for a permit to install a PV system and immediately be issued a permit application, complete with pre-approved design plans; and

WHEREAS, COUNTY maintains an Environmental Protection and Growth Management Department which includes a Permitting, Licensing, and Consumer Protection Division ("PLCPD") that conducts building plan review, permit inspections, code enforcement, and other building permit-related services; and

WHEREAS, COUNTY has agreed to accept the online applications, an agreed upon permit fee, and disseminate the application and permit fee to the applicable municipality; and

WHEREAS, CITY/TOWN agrees, at no additional cost to CITY/TOWN, to transfer to COUNTY the authority to receive applications for rooftop PV installations within municipal boundaries, to issue permits for those rooftop PV installations that utilize pre-approved design plans under the CITY/TOWN permit brand, and distribute to CITY/TOWN an agreed upon fee for those rooftop PV installations within CITY/TOWN municipal limits for which COUNTY issues permits; and
