Independent Auditors' Report

Board of Trustees
City of Wilton Manors
Volunteer Firefighters Retirement System
Wilton Manors, Florida

We have audited the accompanying statements of plan net assets of the City of Wilton Manors Volunteer Firefighters Retirement System (the "System") at September 30, 2009 and 2008, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the System's trustees. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the City of Wilton Manors Volunteer Firefighters Retirement System as of September 30, 2009 and 2008 and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis on pages 2 – 5 and the supplementary information, as listed in the accompanying table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and do not express an opinion on it. The required supplementary information for the years ended September 30, 2004 through 2007 was reported by Koch Reiss & Company, P.A. whose report states that they did not audit this information and did not express an opinion on it.

Management's Discussion and Analysis (Required Supplementary Information - Unaudited)

Our discussion and analysis of the City of Wilton Manors Volunteer Firefighters Retirement System (the "System") financial performance provides an overview of the System's financial activities for the fiscal years ended September 30, 2009 and 2008. Please read it in conjunction with the System's financial statements, which follow this discussion.

Financial Highlights

- The System's assets exceeded liabilities at the close of the fiscal years ended September 30, 2009 and 2008 by \$707,144 and \$702,016 (reported as net assets held in trust for pension benefits). Net assets are held in trust to meet future benefit payments. The increases of \$5,128 and \$13,859 of the respective years have resulted primarily from the changes in the fair value of the System's investments due to volatile financial markets.
- The System's funded ratio, a comparison of the actuarial value of assets to the actuarial accrued pension liability, changed from 52.6% as of the October 1, 2006 actuarial valuation to 60.9% as of October 1, 2007 valuation and 63.0% as of October 1, 2008 valuation.

- For the fiscal year ended September 30, 2009, receivables decreased by \$40,539 (or 57.3%) primarily due to a decrease in receivable due from contributing entity.

For the fiscal year ended September 30, 2008, receivables decreased by \$3,928 (or 5.3%) primarily due to a decrease in receivable for securities sold.

- For the fiscal year ended September 30, 2009, liabilities decreased by \$1,119 (or 77.1%) primarily due to a decrease in payable for securities purchased.

For the fiscal year ended September 30, 2008, liabilities increased by \$196 (or 15.6%) primarily due to an increase in payable for securities purchased.

- For the fiscal year ended September 30, 2009, entity contributions to the System decreased by \$77,311 (or 49.9%) from 2008. Actual entity contributions were \$77,739 and \$155,050 for 2009 and 2008, respectively.

For the fiscal year ended September 30, 2008, entity contributions to the System decreased by \$32,653 (or 17.4%) from 2007. Actual entity contributions were \$155,050 and \$187,703 for 2008 and 2007, respectively.

- For the fiscal year ended September 30, 2009, net investment income increased by \$100,883 (or 106.3%). Actual results were \$14,378 and \$115,657 of net depreciation in fair value of investments for 2009 and 2008, respectively, and \$20,341 and \$20,737 in income from interest and dividends for 2009 and 2008, respectively.

Management's Discussion and Analysis (Required Supplementary Information - Unaudited)

Financial Highlights - continued

For the fiscal year ended September 30, 2008, net investment income decreased by \$165,410 (or 234.7%). Actual results were \$(115,657) and \$53,392 of net (depreciation) appreciation in fair value of investments for 2008 and 2007, respectively, and \$20,737 and \$17,098 in income from interest and dividends for 2008 and 2007, respectively.

- For the fiscal year ended September 30, 2009, benefit payments increased by \$15,520 (or 56.8%).

For the fiscal year ended September 30, 2008, benefit payments increased by \$6,161 (or 29.1%).

- For the fiscal year ended September 30, 2009, administrative expenses increased by \$16,783 (or 88.5%) primarily due to increase in fees for professional services.

For the fiscal year ended September 30, 2008, administrative expenses decreased by \$12,384 (or 39.5%) primarily due to decrease in fees for professional services.

Plan Highlights

For the fiscal year ended September 30, 2009, the total return of the portfolio was 1.4%. Actual net return from investments increased in 2009 to \$5,963 compared with losses of \$(94,920) in 2008.

For the fiscal year ended September 30, 2008, the total return of the portfolio was -13.2%. Actual net investment losses in 2008 were \$(94,920) compared with income of \$70,490 in 2007.

Using the Audited Financial Statements

The financial statements, which reflect the activities of the System, are reported in the Statement of Plan Net Assets and the Statement of Changes in Plan Net Assets. These statements are presented on a full accrual basis, reflect all System activities as incurred and are based on a snapshot in time of account balances of investments at fiscal year end.

Notes to Financial Statements
September 30, 2009 and 2008

Note 1 – Description of the Plan

Organization

The City of Wilton Manors Volunteer Firefighters Retirement System (the “System”) is a single-employer defined benefit plan established by the City of Wilton Manors, Florida (the “City”) pursuant to the provisions and requirements of Chapter 21 of the City of Wilton Manors Code of Ordinances. Since the System is sponsored by the City, the System is included as a pension trust fund in the City’s comprehensive annual financial report as part of the City’s financial reporting entity.

The following brief description of the System is provided for general information purposes only. Participants should refer to the plan agreement for more detailed and comprehensive information.

Participants

All active members of the Wilton Manors Volunteer Fire Department are members of the System.

Membership

As of October 1, membership in the System consisted of:

	2009	2008
Retirees and beneficiaries currently receiving benefits	2	2
Active plan participants	8	8
Total participants	10	10

Funding Requirements

Members are not required to contribute to the System and benefits are not compensation related.

Pursuant to Florida Statutes, Chapter 175, contributions from the State of Florida Department of Insurance consist of an excise tax imposed by the City upon certain casualty insurance companies on the gross amount of receipts of premiums from policy holders on all premiums collected on casualty insurance policies covering property within the City. The allowable portion of the State contribution is used to reduce the City’s contribution for Firefighters when received. The City is expected to contribute such additional amounts as are necessary on an actuarial basis to fund the System’s expenses, normal cost and to amortize the unfunded actuarial accrued liability.

Pension Benefits

Normal Retirement:

The normal retirement date for a member shall be the first day of the month coinciding with or next following the attainment of the earlier of the member’s fifty-fifth (55th) birthday, or the member’s fiftieth (50th) birthday and completion of 20 years of continuous service as an active member of the Wilton Manors Volunteer Fire Department. A member will be 100% vested at the attainment of his normal retirement date regardless of any other provisions of the System.

City of Wilton Manors Volunteer Firefighters Retirement System
Notes to Financial Statements
September 30, 2009 and 2008

Note 1 – Description of the Plan - continued

Pension Benefits - continued

Members will receive a monthly pension benefit equal to \$56 (\$50 prior to November 14, 2006) multiplied by the years of creditable service.

Deferred retirement, disability, death and other benefits are also provided.

Investments

The System's investments are commingled with those of the City of Wilton Manors, Florida Pension Plan for General Employees and Police as more fully describe in Note 7. Due to the fact that the System's investments are commingled as discussed above, the System's investment policy, monitoring, authorization and allocation is the same as that of the City of Wilton Manors, Florida Pension Plan for General Employees and Police.

The System's investment policy is determined and approved by the Board of Trustees and is implemented by investment managers. In addition, the System's investments are monitored by an investment advisor. The City Code stipulates that the trustees shall, in acquiring, investing, reinvesting, exchanging, retaining, selling and maintaining property for the benefit of the System exercise the judgment and care under the circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs.

The trustees are authorized to acquire and retain various kinds of property, real, personal or mixed, and various types of investments specifically including, but not by way of limitation, bonds, debentures and other corporate obligations, and stocks, preferred or common, which persons of prudence, discretion and intelligence acquire or retain for their own account. The investment of funds shall be in a manner that is consistent with the applicable sections of the City Code as well as State and Federal laws within the allocation percentages established by the trustees.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The System's financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized as revenues when due pursuant to actuarial valuations. Interest and dividend income are recorded as earned. Benefits are recognized when due and payable in accordance with the terms of the System.

Recent Accounting Standards

The System adopted Governmental Accounting Standards Board (GASB) Statement No. 50 "Pension Disclosures" (GASB 50) which amends GASB Statements No. 25, "Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans", and No. 27, "Accounting for Pensions by State and Local Governmental Employers". GASB 50 requires disclosure in the notes to the financial statements of pension plans and certain employer governments of the current funded status of the plan and other actuarial information which had previously been provided as required supplementary information. The adoption of GASB 50 had an impact on the presentation of the notes to the financial statements but no impact on net assets.

City of Wilton Manors Volunteer Firefighters Retirement System
Notes to Financial Statements
September 30, 2009 and 2008

Note 2 – Summary of Significant Accounting Policies - continued

Cash and Cash Equivalents

The System considers all highly liquid investments with an original maturity of three months or less when purchased, to be cash equivalents.

Investments

The allocated investments (Note 5) are recorded at fair market value. The fair value of quoted investments is based on the closing sales price or bid price as reported by recognized security exchanges. Bonds are reported at established fair value. Securities that have no quoted market price are presented at estimated fair value as provided by the custodial bank and investment counsel.

Unrealized gains and losses are presented as net appreciation (depreciation) in fair value of investments on the statement of changes in plan net assets along with the gains and losses realized on sales of investments. Purchases and sales of investments are recorded on a trade-date basis.

Given the inherent nature of investments, it is reasonably possible that changes in the value of those investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of plan net assets.

Income Tax Status

The System is exempt from Federal income taxes under the Internal Revenue Code and, therefore, has recorded no income tax liabilities or expense.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the System and the actuarial information included in the required supplementary information (RSI) are reported based on certain assumptions pertaining to the interest rates, inflation rates and member compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions may occur in the near term and, due to the uncertainties inherent in settling assumptions, that the effect of such changes could be material to the financial statements.

Subsequent Events

Management has evaluated events through May 4, 2010, the date which the financial statements were available to be issued.

Note 5 – Deposit and Investment Risk Disclosures

Investment Authorization

The System's investment policy is determined and approved by the Board of Trustees. The policy has been identified by the Board to conduct the operations of the System in a manner so that the assets will provide the pension and other benefits provided under applicable laws, including City ordinances, thereby fulfilling the System's main objective of capital preservation with capital appreciation and some level of current income. The Trustees are authorized to acquire and retain every kind of property, real, personal or mixed, and every kind of investment specifically including, but not by way of limitation, bonds, debentures, and other corporate obligations, and stocks, preferred or common.

Investment in common stock or capital stock shall be limited to those listed on a major U.S. stock exchange and limited to no more than 70% (at market) of the System's total asset value, with no more than 5% of the System's total assets, at cost, invested in the common stock of any one company. Moreover, not more than 20% of each portfolio shall be invested in any single industry at cost.

The fixed income portfolio shall be comprised of securities rated "A" or higher by a nationally recognized rating agency. Except for U.S. treasury and U.S. Agency obligation, no manager should invest more than 5% of the System assets in the securities of a single issuer.

No issues may be purchased with more than 15 years to maturity.

Types of Investments

Florida statutes and System investment policy authorize the Trustees to invest funds in various investments. The current maximum target allocation of these investments is as follows:

	2009		2008	
	Maximum target % of portfolio	Actual % of portfolio	Maximum target % of portfolio	Actual % of portfolio
Authorized investments				
Equity	70%	59.1%	70%	63.6%
Fixed income	65%	36.4%	65%	32.1%
Cash equivalents	50%	4.5%	50%	4.3%

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to interest rate risk, the System diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer with various durations of maturities.

Credit Risk

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. This risk is generally measured by the assignment of a rating by a nationally recognized statistical rating organization. The System's investment policy utilizes portfolio diversification in order to control this risk.

*Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not have purchase limitations.

Concentration of Credit Risk

The investment policy of the System contains limitations on the amount that can be invested in any one issuer as well as maximum portfolio allocation percentages. There were no individual investments that represent 5% or more of plan net assets at September 30, 2009 and 2008.

Custodial Credit Risk

This is the risk that in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the System's investment policy, the investments are held by City of Wilton Manors, Florida Pension Plan for General Employees and Police (the "Plan") custodial bank and registered in the Plan's name.

The System is non-contributory and is not intended to require any City or member contributions.

Note 7 – Management Agreement

The System has an agreement with the City of Wilton Manors, Florida Pension Plan for General Employees and Police (the "Plan") to keep custody of and manage the assets of the System. The Plan is providing this service as an accommodation and does not incur any fiduciary obligation to the System separate and apart from the fiduciary responsibility of the professional custodian and money managers to the Plan. For the years ended September 30, 2009 and 2008, \$680,126 and \$633,832 respectively, of the System's assets are included as assets on the Plan's combined statements of plan net assets with \$680,126 and \$633,832 reflected as a liability due to the Firefighters Retirement System on the Plan's combined statement of plan net assets for each of those years. The System reflects the prorata allocation of these amounts each year within the various asset categories on the statements of plan net assets.
