## Give This Paper a Future!

This isn't this piece of paper's first rodeo.

It's been recycled before, and it can be recycled again. So do your part.

Check out these other items that can thank recycling for a chance at an exciting second career.

That bottle in your cup holder today could become a park bench or even filling for a park one day.

Recycle that newspaper today, and it could return to your house as a cereal box.

Recycle that aluminum can today, and it could be back on the shelf as a new one in just 60 days!

And this piece of paper? Recycle it today, and who knows what story it might tell later.
